SKILLS

HTML CSS Java Script My SQL C#
ASP.NET C++ C JAVA Data Structure
XML

PERSONAL PROJECTS

To provide sicurity to stored data using AES (01/2020 - 06/2020)
- Implemented encryption and decryption of data using Advanced Encryption Standard(AES). Here we have inbuilt auditor which encrypt/decrypt data within system without using any third party. Post encryption data get sored within storage space of system which will act as an pseudo cloud.

Portfolio (01/2021 - 01/2021)
- Created my portfolio site by using HTML,CSS & Java Script. Site is hosted on Netlify.
- Portfolio link - https://arnavmehta.netlify.app/.

Automation of flipkart (08/2020 - 09/2020)
- Used selenium and java to create script for automating flipkart website which will add three home appliance to the Wishlist and then return total amount calculated by cart.

Water Bill Management System (08/2017 - 10/2017)
- Project developed in C++ using oops concet
- -This project is used to manage consumption of water in units by each family, calculate the total amount of bill family has to pay and generated bill for them

Movie Ticket Vending Machine (09/2018 - 10/2018)
- A simple object oriented analysis and design implementation using Star Uml.
